# How will this information be used and why?

Under the Great Bear Rainforest PFP and Great Bear Sea PFP agreements (see: <u>Governing Documents</u>), Coast Funds is mandated to administer funds for participating First Nations' investments in conservation and economic development, and to record the collective outcomes achieved. The questions in this application form, which mirror the final report form, track the community well-being outcomes identified in the PFP agreements. Coast Funds is accountable for reporting aggregated outcomes achieved. Importantly, each Nation's data is their own, and all Coast Funds will never share Nation-level or project-specific data with funders, partners, or wider public audiences without a Nation's consent.
