**General Index of Financial Information**  
**Notes to the financial statements**

1. Operations:  
Coast Economic Development Society (the "Society") is incorporated under the Societies Act (British Columbia). The Society commenced operations in September 2007, with the appointment of the Board of Directors (the "Board").  
The Society is a not-for-profit organization under the Income Tax Act. Its purpose is to fund sustainable economic development initiatives in the central and northern coastal regions of British Columbia and Haida Gwaii in collaboration with First Nations.  
The Society has established several funds whose purposes are to fund the Society's operational and administrative activities, and project distributions. These funds are described in note 2(b) and the monies in these funds have been invested in fixed income instruments and treasury accounts. The Society's investments and investment income will decrease as projects are disbursed, and hence net investment income may be less than operating expenses.  
The Society's planned dissolution is scheduled to take place in July 2025.

2. Significant accounting policies:

(a) Basis of presentation:  
These financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations in Part III of the CPA Canada Handbook.

(b) Fund accounting:  
The Society follows the restricted fund method of accounting for contributions. For accounting purposes, the following funds have been established:

(i) General fund:  
The general fund is used to manage and report on unrestricted revenue and expenses. As at December 31, 2024, there are no funds held in the general fund (2023 - nil).

(ii) Externally restricted funds:  
Renewable Energy for Remote Communities fund:  
This fund includes contributions from the Province of British Columbia and interest earned on these contributions that have been restricted for the funding of renewable energy projects in seven First Nations communities in coastal British Columbia and for the operating and administrative activities related to the program.

Federal revenue fund:  
This fund includes income earned on the regional economic development planning fund and federal economic development fund and are used first for the funding of the Society's operational and administrative activities. Any remaining balance is used for sustainable economic development projects by First Nations in the project area.

Year ended December 31, 2024

Payment of project distributions to First Nations may be conditional on the recipient meeting certain criteria and providing certain supporting information.

(e) Use of estimates:

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates.

2. Significant accounting policies (continued):

(f) Financial instruments:

The Society's financial instruments include cash and cash equivalents, interest receivable, amounts due from related parties, investments, accounts payable and accrued liabilities

and accrued project funding distribution. Financial instruments are recorded at fair value on initial recognition. Freestanding derivative instruments that are not in a qualifying hedging relationship and equity instruments that are quoted in an active market are subsequently measured at fair value. Investments are recorded at the trade date and measured at fair value. All other financial instruments are subsequently recorded at cost or amortized cost. Related party financial instruments quoted in an active market or those with observable inputs significant to the determination of fair value or derivative contracts are recorded at fair value at initial recognition. All other related party financial instruments are recorded at cost at initial recognition. Transaction costs incurred on the acquisition of the financial instruments measured subsequently at fair value are expensed as incurred. All other financial instruments are adjusted by transaction costs incurred on acquisition and financing costs, which are amortized using the straight-line method. Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Society determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Society expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

(g) Cash and cash equivalents:  
Cash and cash equivalents include fixed income investments with maturity dates within 90 days of acquisition.

**8. Financial instruments:**

**(a) Market risk:**

Market risk is the risk that the fair value of the Society's financial instruments will fluctuate as a result of changes in market prices. Market risk is comprised of interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing return. This risk is managed by the Society through closely monitoring its investments and maintaining the instruments within the Society's Investment Policy. All securities present a risk of loss equivalent to their fair values.

**(i) Interest rate risk:**

Interest rate risk is the risk that the value of or cash flows from interest-bearing financial instruments will fluctuate due to changes in the levels of market interest rates. The Society's interest rate risk is mostly related to investments in fixed income instruments and the pooled mortgage fund. The Society's interest rate risk is managed by the Society with an investment manager through construction of a diversified portfolio and monitoring of the investments by management.

**(ii) Other price risk:**

Other price risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk) whether they are caused by factors specific to an individual investment, its issuer or by factors affecting all instruments

traded in the market.

(b) Credit risk:

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in a financial loss. The Society's investments are majority in cash and are held with a reputable institution.

Its investments are diversified within fixed income instruments and treasury bonds.

(c) Liquidity risk:

Liquidity risk is the risk that the Society will be unable to fulfill its obligations on a timely basis or at a reasonable cost. The Society manages its liquidity risk by monitoring its operating requirements. The Society prepares budget and cash forecasts to ensure it has sufficient funds to fulfill its obligations.

There have been no significant changes to any of the above risk exposures from 2023.

9. Capital management:

The Society defines capital to be net assets.

The primary objective of the Society's capital management is to preserve capital and ensure availability of cash to fund projects to First Nations. This objective is balanced with the need to generate investment

income to fund operating expenses of the Society.

The Society manages capital in accordance with the Conservation Investments and Incentives Agreement

which requires utilization of professional investment management services.

The Society also manages

capital in accordance with the Performance and Accountability Funding Agreement dated March 3, 2007.

Under both these agreements the Society agreed to make its best efforts to expend the restricted fund

balances in their entirety within a seven year period ending 2014. Despite best efforts, the restricted fund

balances were not expended within this timeframe. The term of the Performance and Accountability

Funding Agreement was extended to 2026 in agreement with the Province of British Columbia. On an

annual basis, the Board reviews the status of the restricted fund balances to assess the likelihood of these

balances being fully expended. Based on the restricted fund balances remaining at December 31, 2024, the

Board is expecting the funds to be fully expended by end of 2025.

As of December 31, 2024, the Society has complied with all externally imposed capital restrictions.

10. Disclosure of director, employee and contractor remuneration:

For the year ending December 31, 2024, the Society paid total remuneration of \$1,689,320 (2023 -
